

## Track n. 2 - Accounting Information Systems in digitalized businesses

The objective of the track is to bring together researchers from all disciplines related to Accounting Information Systems (AIS) in order to debate on the relationship between accounting and information technology. The track is interested in research on the links between information technology with financial accounting, auditing, reporting, management accounting, management control, and related disciplines.

The track particularly aims to stimulate the debate and the research concerning the interaction between digital/network technology and accounting information systems in order to investigate the relationship between ICT and innovation in the field of financial and management accounting. This track is aimed at discovering how such technologies stimulate innovations of skills and activities of accounting professionals as well as of accounting information systems. Furthermore, it aims to encourage studies which highlight how digital and social technology may induce innovation in the accounting environment (accounting professionals, accounting skills, accounting information systems, accounting models and other relevant enterprise systems, such as management control systems, performance measurement systems, internal control systems, risk assessment and risk management systems). Are also welcome papers that investigate how accounting information needs different ways to read information and stimulate innovation in enterprise functions and in ICT. The objective is to bring together researchers from all scientific fields related to Accounting Information Systems (AIS) for a high level interaction, discussion, and exchange of fruitful ideas in the setting of the Italian AIS (ItAIS). The following Journal support AIS track with special issues and fast track for publication: The International Journal of Digital Accounting Research (IJДАР), Management Control, International Journal of Digital Culture and Electronic Tourism.

The track will cover a wide range of topics. Topics of interest include, but are not limited to:

- AIS and digital transformation,
- AIS and social media,
- Financial Reporting and XBRL,
- Management control, performance measurement and Big Data,
- Management control and digital platform,
- Accounting and Internet of Things,
- Inter-organizational network and collaborative platform,
- Accountants' role and skills in a digitalized business,
- Design and use of digital and social technology in different contexts and industry, such as private and public companies, interorganizational networks, SMEs or multinational enterprises.

Perspectives from diverse fields such as computer science, accounting, psychology, sociology, cognitive science, political science, behavioral science, and economics as well as high-quality and theoretically sound studies of any type (quantitative/qualitative studies, action research, surveys, behavioral/experimental studies, design science, case studies, theory development, etc.) are equally encouraged. Papers are also welcome, bringing together researchers and practitioners to improve different research perspectives on AIS. Theoretical or empirical studies are equally encouraged as well as different kind of research methodology. Completed research and research-in-progress papers will be accepted.

## Track Co-Chairs

Name – Surname (primary contact)	<b>Daniela Mancini</b>
Title	Professor
E-mail	<a href="mailto:mancini@uniparthenope.it">mancini@uniparthenope.it</a>
Affiliation	Parthenope University of Naples
Short Biography	Daniela Mancini is Professor of Accounting Information Systems at Parthenope University of Naples. Her research interests concern accounting and management information systems, with a specific attention to the business networks' context. She has been track chair at the ItAis and Ecis Conferences.
Name – Surname	<b>Paola Dameri</b>
Title	Professor
E-mail	<a href="mailto:dameri@economia.unige.it">dameri@economia.unige.it</a>
Affiliation	University of Genoa
Short Biography	Renata Paola Dameri is Associate Professor in Business Administration and Information Systems at the University of Genoa. She is member of the SDA Bocconi School of Management – Information Systems Unit and visiting professor in IT Governance at the Université Paris Dauphine. She is author of several books and papers on Information systems, Accounting and IT governance.
Name – Surname	<b>Enrique Bonson</b>
Title	Professor
E-mail	<a href="mailto:bonson@uhu.es">bonson@uhu.es</a>
Affiliation	Huelva University
Short Biography	Enrique Bonsón is Professor of Accounting at the University of Huelva, Spain. He has a range of interrelated research interests in Accounting Information Systems, Continuous Audit, Corporate Reporting and the Internet, Corporate Social Responsibility, Digital Assurance, Integrated Reporting, Social Media and Web 2.0 for Stakeholder's Engagement. His research publications appear in many academic, business and professional periodicals. He is co-editor of the International Journal of Digital Accounting Research and serves on editorial boards of several international journals.

## Track programme committee members

- Nicola Castellano, [nicola.castellano@unimc.it](mailto:nicola.castellano@unimc.it), University of Macerata, Italy
- Katia Corsi, [kcorsi@uniss.it](mailto:kcorsi@uniss.it), Sassari University, Italy
- Rita Lamboglia, [lamboglia@uniparthenope.it](mailto:lamboglia@uniparthenope.it), Parthenope University of Naples, Italy
- Rosa Lombardi, [rosa.lombardi@uniroma1.it](mailto:rosa.lombardi@uniroma1.it), University of Rome La Sapienza, Italy

## Submission

Submissions will be evaluated through a standard blind review process. Track chairs will ensure anonymity of the review process.

Authors are highly encouraged to seek guidance from Track Chairs prior submitting the paper. We highly encourage authors to formalize this process by sending an abstract to the Track Chairs to receive feedback and guidance. Formal submission must specify the track that they are intended for. The page limit for contributions submitted in English is equal to 12 pages (maximum). Formatting rules (LNCS Springer format) are available at this link:

<http://www.springer.com/it/computer-science/lncs/conference-proceedings-guidelines>

Deadline for encouraged abstract submission: May 14, 2017

**Deadline for full paper submission: June 11, 2017**
