[MCIS] Andrea Carugati (Aarhus University, Denmark)
[MCIS] Joao Vieira Da Cunha (IESEG School of Management, France)
[ItAIS] Alessandra Lazazzara (University of Milan, Italy)

Important Dates
Encouraged abstract submission: April 25, 2022
Full paper submission: May 29, 2022
Notification of acceptance: July 25, 2022
Final paper submission: September 10, 2022
Doctoral Consortium: October 13 - 14, 2022
Conference: October 14 - 15, 2022

Submission guidelines
Submissions will be evaluated through a standard **blind review** process. Track chairs will select reviewers and ensure anonymity of the review process.

Authors are highly encouraged to seek guidance from Track Chairs prior submitting the paper. We then suggest authors to submit an abstract in order to receive a feedback by the track chairs before the full paper submission.

ITAIS and MCIS have two separate collections for publishing the **conference proceedings** on the **AIS digital library**. For this reason, authors must specify on their submission what collection they are interested in having their paper published on. This information has to be provided by the authors on the Easychair platform during the submission process.

Furthermore, the best contributions will be published in a Springer volume "Lecture notes in Information Systems and Organization" series, indexed on Scopus. We are also arranging agreements for fast access to journals (some information are already available in the description of specific tracks).

Further details can be found on the conference website:
www.mcis2022.eu or www.itais.org/conference

Conference Tracks

T01 – Organizational Change: Enabling Technologies & Business Process Design

T02 – Digital transformation and the future of work: Processes, competences, and HRM challenges

T03 – Socio-Technical Perspectives to lead the change towards a sustainable society
