Deadline for full paper submission
September 8th, 2013

Notification of acceptance
October 15th, 2013

Final paper or poster submission
November 18th, 2013

Conference
December 14th, 2013

Submission guidelines

Submissions will be evaluated through a standard **blind review** process. Track chairs will select reviewers and ensure anonymity of the review process.

Authors are highly encouraged to seek guidance from Track Chairs prior to submission of the paper. We highly encourage authors to formalize this process by sending an abstract to the Track Chairs to receive feedback and guidance.

Formal submission must specify the track that they are intended for. The page limit for contributions submitted in English is equal to 8 pages (maximum). Formatting rules will be available on conference website.

Publications

Accepted papers will need to show both relevance and methodological rigor. The best English contributions will be published in a Springer volume indexed on Scopus. Other papers will be published in the conference proceedings (CD-ROM). At least one author for each accepted paper must attend the conference and present the work.

The online submission system will be available at *(tbc)*
